

Coastal Horizons Center, Inc.
Job Announcement

Date of Announcement: June 3, 2010

Job Title: Substance Abuse Nurse

Job Duties:

- Provides dispensing of methadone via a computerized dosing system,
- Performs assessment of client medical progress as it relates to opioid treatment, documents clinical and medical findings relevant to treatment, and determines the referral status to the program physician or other health care provider,
- Orients newly admitted clients regarding medical aspects of opioid treatment program, provides education and prevention of communicable disease risk to patients and their family,
- Collects specimens for substance abuse, TB, HIV, and STD testing, follow-up, referral and monitoring.
- Participates in case staffing of patient medical/clinical service plans,
- Assists program physician with patient care,
- Documents and ensures accurate record keeping of all controlled substances and monitors compliance with all state and federal regulations.
- Assists with coordination of medical services: policy and procedure development, personnel scheduling and staff training.

Qualifications: RN or LPN required. Prefer basic familiarity with using computerized record keeping, with previous experience working with substance abuse population.

Job Status: Full-time, permanent (32-40 hours per week),
Flexible daily schedule, Monday through Friday;
(must be available for 6:00 am dispensing)
Saturday dispensing: 7:00 am to 10:30 am *(one to two times per month)*

Hourly Rate/Salary: Commensurate with degree, education and experience. Coastal Horizons offers full time staff with benefit coverage availability including medical/dental insurance, life, LTD/STD, paid time off programs, 401K retirement savings plan.

Job Availability: Immediately
