

HORIZONS HEALTH SERVICES

PHONE: 910-202-3860 ~ FAX: 910-202-3862

SELF PAY FEE SCHEDULE

Horizons Health Services is staffed by an experienced nurse practitioner and physician assistant trained in family medicine. We offer team-based care, which includes wellness and health coaching. We provide care to adults and children 12 years of age and older for most services. Patients with conditions or health needs outside of our scope of services will be directed to other community health care providers. The cost for those outside services will be the responsibility of the individual. We do not treat conditions requiring our practitioners to prescribe controlled substances.

Patients with the following conditions should consider calling 911 or seek care at the emergency room:

- Severe chest pain
- Severe shortness of breath or difficulty breathing
- Children with temperatures >104 degrees F. or more
- Adults with temperatures >103 degrees F. or more

Prices are listed below. Labwork and tests are only performed as part of another listed service. We welcome cash or credit card. We do not file health insurance. PAYMENT IS DUE AT TIME OF SERVICE.
